MksU Launches Mazingira Week with Environmental Clean-Up

Machakos University officially launched Mazingira Week 2026 with an environmental clean-up exercise in the Machakos County Central Business District, bringing together government agencies, environmental organisations, students and community partners to promote environmental stewardship.

Running from 5–10 October 2026, the initiative was flagged off by Machakos Deputy County Commissioner Mr. Mashira Gathungu, representing the County Commissioner, Mr. Jackson Ole Chuta. Participating organisations included Machakos University, KFS, NEMA, KeNHA, KeRRA, KALRO, KMD, TARDA and WRA, alongside the Kenya Red Cross Society–Machakos Branch, Kenya Scouts Association and the University’s Environmental Club.

Representing Vice-Chancellor Prof. Joyce J. Agalo, Prof. David Mulwa, Registrar (Research, Innovation and Linkages), joined Dr. Julius Nzeve, Dean, School of Agriculture, Environment and Health Sciences, and members of the University community.

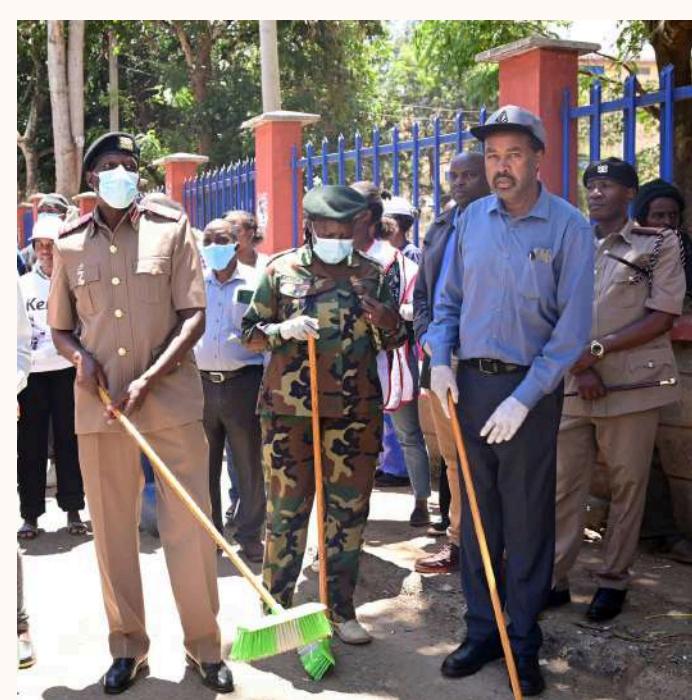

The Vice-Chancellor emphasised that environmental conservation requires sustained collective action and must become part of everyday life.

“Environmental conservation is a collective responsibility. The lessons from today’s exercise should not end when the clean-up is over; they should become part of our everyday lives.”

— Prof. Joyce J. Agalo, Vice-Chancellor

The week will culminate in a tree-growing exercise on Mazingira Day, 10 October, in support of the 15 Billion Tree Growing Campaign, under the theme “Citizen-Centric Tree Growing and Environmental Stewardship.”

Cleaner spaces. Greener communities. A sustainable future.

MksU Engineering Students Gain Industry Insights Through IEK Mentorship

Machakos University's Engineering Students Association (MksU-ESA) hosted the Institution of Engineers of Kenya (IEK) for a mentorship session themed "The Road to a Dynamic Industry," connecting students with professional insights into the engineering field and the demands of the industry.

During the session, Eng. Yvonne Robert encouraged students to cultivate meaningful professional relationships, expand their networks, uphold integrity and ethical standards, and apply their skills towards making a positive impact on society.

Dr. (Eng.) Damaris Oyaro challenged women pursuing engineering to remain resilient, embrace challenges and persist in working towards their professional aspirations, underscoring the importance of determination in navigating the profession.

Students were also invited to attend the 33rd IEK Annual International Conference in November, with IEK committing to support selected students to participate in the one-day conference. The initiative reflects the value of mentorship and professional exposure in preparing students for successful engineering careers.

Building connections. Inspiring leadership. Shaping the engineers of tomorrow.

Congratulations Machakos University on 10 Years of Excellence!

Machakos University recently celebrated a decade since it was awarded its Charter, attaining full-fledged public university status and marking a significant milestone in its institutional journey. Over the past 10 years, the University has continued to grow in education, research, innovation and community impact, shaping futures and creating opportunities for generations of learners. Join us in celebrating 10 years of excellence, growth and transformation as we honour our journey and look forward to an even brighter future.

Congratulations Class of 2026!
